

Overview:

Eight homeless people have been killed in the last 8 weeks. Eyewitness reports are vague but all suggest a “monster” of some sort reached out of the dark and killed the victims.

Wounds on the victims include blunt trauma, broken and dislocated bones and joints and deep lacerations caused by some type of spinning blade or blades. Each also had a large chunk of tissue removed by some type of pincher blade assembly.

All the attacks have occurred after midnight. There seems to be no pattern to the victims except the fact they were all homeless.

Victim # 1

Male, Age 38

Killed March 18, 2003 @ around 0430

Bite: Neck, left side

Victim # 2

Female, Age 49

Killed March 27, 2003 @ around 0015

Bite: Right shoulder

Victim # 3

Male, Age 31

Killed April 1, 2003 @ around 0300

Bite: Lower back, right side near kidney

Victim # 4

Male, Age 59

Killed April 10, 2003 @ around 0415

Bite: Right shoulder blade

Victim # 5

Female, Age 42

Killed April 15, 2003 @ around 0130

Bite: Left thigh, rear.

Victim # 6

Male, Age 28

Killed April 24, 2003 @ around 0345

Bite: Back of neck near spinal column

Victim # 7

Female, Age 62

Killed April 29, 2003 @ around 0045

Bite: Back, right side between hip and shoulder blade.

Victim # 8
Male, Age 39
Killed May 1, 2003 @ around 0130
Bite: No such wound present

Eyewitness Statements:

The following are the highlights of the various eyewitness statements collected by the police.

Some witnesses reported a 10 foot tall thin man beating the victims. The man was obviously a super as he moved faster than anything they'd ever seen.

Some reports had the attacker as a giant cat that pounced on the victims then tore them up and fled.

One report insisted the attacker was a cyber-ninja from the future sent back to kill the father of the revolution that overthrows the ninja government.

Two people insist that the attacker was a garbage can that stood up like a man and beat the victim.

Forensic Data:

Several of the blunt trauma wounds were inflicted with a metal weapon of some type, a pipe or club. They are consistent with someone or something of great strength, but certainly not super human.

The lacerations are from either a single spinning blade or a number of blades spinning at high speed. They are deep and clean, cutting through flesh and bone with ease. Most of the victims had six or seven of these cuts on them.

There is evidence to suggest that a variety of weapons were used in the attack as many of the blows have different characteristics. Five or six weapons perhaps.

There was no DNA or fiber evidence on any of the victims that might be linked to the killer.

The nature and scope of the wounds suggests that all the victims died within a few minutes of the attack.
